

I have been a Verizon Wireless customer along the Rt. 422 Corridor in Montgomery County for several years and have always received poor reception in my home area. I would like our representatives to vote IN FAVOR OF THE WIRELESS NUMBER PORTABILITY legislation, which would enable me to take my telephone number to another supplier with better reception in my home area. My telephone number is recognized by hundreds of business associates and it would create a major problem to change the number, BUT IT IS CREATING A MAJOR PROBLEM FOR ME TO CONTINUE MISSING CALLS BECAUSE OF POOR RECEPTION IN MY HOME AREA. YOUR SUPPORT ON THIS ISSUE WILL BE GREATLY APPRECIATED. I have brought this subject up to Verizon on several occasions and they claim I am the only person in this area with the problem, however when I talk to other Verizon customers in this area, they all have the same issue. At this point the wireless suppliers are holding us captive to their poor service just to keep our identity (our wireless telephone number which we've had for years).
